Printed on Finch Premium Blend which contains a minimum of 30% post-consumer recovered fiber.

**BRAZO**

BRAZO uses high-powered, high-quality LEDs for supreme sustainable advantages. The LED lights are 85% more efficient than incandescent lights and have a lifespan of up to 50,000 hours. In addition, BRAZO is 98.5% recyclable.

BRAZO is the first lamp to offer focus control – allowing the user to dial into any desired light spread – in addition to full dim control. This makes BRAZO ideal for use near a monitor. The arm rotates 360 degrees, pivots upward 90 degrees, and features an adjustment range of 8 inches for maximum user comfort and control.

BRAZO's slender, multi-adjustable arm casts a linear band of light across a worksurface. Luminous LEDs are elegantly concealed by an aluminum body. More than aesthetics, the glass shade provides superior clarity and the internal heat sink eliminates heat output for a truly functional design.

Precision machined and fully adjustable, the BRAZO desk lamp's calibrated light control and aluminum body add up to brilliantly functional design. BRAZO complements any environment while delivering superior lighting in a sustainable package. This sleek, energy-efficient LED light source provides years of service with little maintenance. BRAZO has received numerous awards including NeoCon Best of Competition, Best of NeoCon Gold, and IDEA Gold.

Imported from Asia
