

INTUITY

Integrated kit of parts – serious about performance.

The latest product line addition to Haworth's Integrated Palette™, Intuity is a simple solution to the complex challenge of supporting the always evolving needs of people, technology, and workstyles within a workplace.

- + Designed to accommodate ever-changing workstyles
- + Offers easy to specify kit of parts that can be integrated into a floor plate
- + Designed to provide workspaces that support the dynamic workplace for the long haul – while giving users easy, intuitive access to everyday essentials

Designed by bangdesign and Haworth Design Studio

The goal of the design collaboration was to develop a universal system with the flexibility to change and adapt to the new needs of different businesses in almost any market across the globe. Intuity demonstrates a new approach to office furniture based on using integrated components to create unique workspaces.
