American Physical Therapy Association

## Form follows science.™

A high-performing task chair, Zody blends science-based wellness and comfort with sustainability and international design. The product of extensive research and development, only Zody offers asymmetrical lumbar adjustments, providing user-selected support on each side of the lower back.

ITO Design, in conjunction with the Haworth Design Studio, created Zody to incorporate design elements that complement, not dominate, any work environment.

For more information or technical assistance, please contact Haworth at 800.344.2600 or 616.393.3000.

# Zody

## Design

Fully adaptable, Zody goes from task chair to conference room to CEO's office. An engineering marvel, patents are pending for 16 new inventions that make Zody a remarkable investment in a mid-priced task chair.

## Sustainability

Designed using the MBDC Cradle to Cradle™ protocol, Zody is assembled using 100% renewable power, contains up to 51% recycled content and is up to 98% recyclable. Zody is GREENGUARD® Children & Schools Certified and chrome and PVC free.

## PAL® Back Support

Zody's Patented Asymmetrical Lumbar Support features a passive pelvic support. PAL allows users to select the amount of support on either side of their lower back for maximum comfort.

## 4-D Arms

Unique 4-D arms provide a four-way adjustment level for enhanced support — in/out, forward/backward, up/down and pivot left/right. Fixed arm and armless versions are also available.

## Headrest

New ergonomic feature added to Zody task seating – the Zody headrest. Soft to the touch, the headrest offers contoured ergonomic support to cradle the head and neck in comfort. Providing 2.5" of height-adjustability, the headrest can fit a wide range of users.

## Control

Individual control is achieved through easy to reach, labeled adjustments including a three-point tilt mechanism, multiple position back-stop and forward tilt. Zody is designed to accommodate 95% of the user population.
