

# A Series™

Storage

PRODUCT INFORMATION SHEET

**HAWORTH®**

With the highest level of design elements, functionality and price scalability, A Series broadens the breadth of application and design options and furthers the aesthetic flexibility needed to enhance the workplace.

## Flexible Design

With countless options—the ability to mix painted steel, wood, and laminate materials, as well as a choice of numerous pull styles—A Series projects a consistent, coordinated, and customized look throughout a space. And because the finish palette is part of Haworth's Integrated Palette™, you can be assured A Series will blend with other Haworth products into the future.

## Integration

A Series is adaptable to your budget, will complement a space, and can be incorporated into any environment to organize and manage the variety of ways people work. Use A Series with benching systems when storage needs are minimal and a lighter scale is desired. Add a residential aesthetic to a private office. Or use freestanding credenzas to divide spaces and groups.

## Performance

The combination of excellence in engineering, manufacturing, and materials provides storage options of value built with strength and security.
